

## JX ALTA™ Tapes

Taping cracks and seams along with installing flashing around windows or any rough opening is critical in keeping a tight seal around your structure. JX ALTA™ Tapes offer a variety of choices for builders to use so they can meet their ultimate design. These accessories are an essential part of the overall weather protection of the JX ALTA™ product line. Please see the listing of our full line of flex and straight flashing options to choose from along with our superior seam tapes.
